DETAILED ACTION

Applicant's amendment dated 04/11/2005 has been received and entered. By the amendment, claims 1-8 and newly added claims 12-13 are now pending in the application.

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-8 and 12-13 are rejected under 35 U.S.C 102(b) as being anticipated by Kim, US Patent No. 6,373,546.

The above claims, as stated in the previous office action, are anticipated by Kim's figure 1, 3d and 4d which disclose an LCD device comprising an active matrix substrate including a plurality of spaced apart signal input terminal (input-terminal in figure 1) comprising:

- . an insulating substrate (1);
- . a plurality of spaced-apart conductive line terminal (15/25);
- . an insulating film (17) having a contact hole (51/61 and area between at least two terminal pads);
- . a plurality of conductive terminal pads (57/67).

Response to Arguments

3. Applicant's arguments filed 04/11/2005 have been fully considered but they are not persuasive.

Art Unit: 2871

Applicant contends that, regarding claims 1 and 5, Kim fails to disclose or suggest a plurality of conductive terminal pads covering a plurality of line terminals in a particular contact hole (amendment, pages 5-6). The Examiner is not convinced by this argument since the same is true of the Kim's array substrate. In particular, Kim does disclose a plurality of conductive pads (i.e., conductive pads for each of data/gate lines) covering by a plurality of line terminals (i.e., line terminals corresponding to each of conductive pads) in a particular contact hole (i.e., area between two terminal pads).

Accordingly, the rejection of the above claims stand.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
